

JibFlex training - ensuring safe & compliant lifting operations

Why training in lifting equipment is essential.

Proper training in lifting equipment is crucial for ensuring workplace safety, regulatory compliance, and operational efficiency.

Operators must be competent to handle lifting operations safely, reducing risks associated with accidents, equipment failures, and legal non-compliance.

Regulatory compliance & safety standards

JibFlex training aligns with key national and international safety regulations, ensuring compliance with:

- Danish executive order 428 – Requires that lifting equipment be handled by trained and competent personnel to ensure workplace safety and prevent accidents.
- LOLER (Lifting Operations and Lifting Equipment Regulations, UK) – Mandates that all lifting operations be properly planned and executed by competent individuals, ensuring safety and efficiency in load handling.

Key benefits of JibFlex training

- ✓ Regulatory compliance – Ensures adherence to Danish and UK safety laws, reducing legal risks.
- ✓ Reduced workplace risks – Proper training significantly decreases the risk of accidents and injuries.
- ✓ Enhanced efficiency – Well-trained personnel improve workflow, reducing downtime and maximizing productivity.
- ✓ Legal responsibility – Employers must ensure that their operators are competent to meet legal requirements and maintain a safe working environment.

JibFlex training offerings

On-Site training

JibFlex offers on-site training, allowing operators to learn in their actual work environment using their own equipment. This hands-on approach ensures:

- Application of training principles in live and real activities.
- Immediate troubleshooting and guidance from experts.
- Customization to specific operational needs.
- Increased team collaboration and efficiency.

E-learning

For flexible and accessible training, JibFlex provides e-learning modules designed for self-paced learning. The advantages include:

- Learn anytime, anywhere with digital access.
- Cost-effective training without travel expenses.
- Consistent and standardized instruction for all operators.
- Interactive and engaging content for enhanced retention.

Refresher course

JibFlex recommends a 24 month refresher course to maintain compliance to relevant safety rules, guidelines and best practices. JibFlex's refresher course ensures:

- Reinforcement of key safety and compliance principles.
- Reduced risk of skill and awareness degradation over time.
- Increased operator confidence and competence.

JibFlex training advantages

JibFlex training programs provide industry-leading expertise to ensure personnel are fully equipped to handle lifting operations safely and effectively. Our training is:

- **ISO-Certified** – Compliant with ISO 9001:2015 (Quality Management), ISO 14001:2015 Environmental management), and ISO 45001:2018 (Occupational Health & Safety).
- **Flexible & Comprehensive** – Offering hands-on training, on-site practical courses, and e-learning modules tailored to industry needs.
- **Expert-Led** – Designed by professionals with extensive experience in lifting operations and compliance.

**Maximize safety,
minimize downtime, and
